

Court of Appeals, State of Michigan

ORDER

Steven Fata v Lyon Township

Docket No. 257936

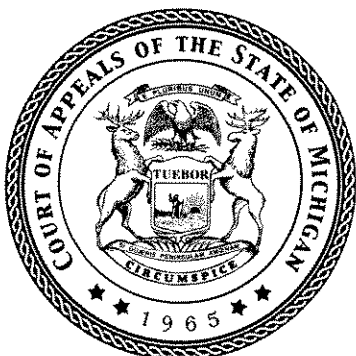

LC No. 02-723576 CH

The Court orders that the motion to remand is DENIED because it was not filed within the time required by MCR 7.211(C)(1)(a). Furthermore, there are too many unanswered questions to remand at this late date. The memo is undated and unaddressed. It was not found in the records of Roscommon County. It was found in the Emmet County records. The 1953 resolution makes no reference to this memo, and appellant has not produced anything that would link this memo to the 1953 resolution. It would be pure speculation to conclude the 1953 resolution was in response to this memo.
